“ I just found out about Ms. Hartfeil's passing. She was one of my favorite teachers in high school - scared the crap out of me the first day but I learned more from her than any other and both appreciated and respected her teaching style she wrote me a LOR for college and gave me a copy of the letter. In it, she described me as "having grit" and it made me so proud. To her family - I'm so sorry for your loss.

“ I was so sorry to hear of Barbara's passing. Except for class reunions (Mac-Hi, 1961), all of my memories are of Barbara in M-F, during school days. She was a lot of fun and we shared a lot of laughs together in classes and out of class too. In junior hi I was her "date" once on a hay ride. I wanted to kiss her so much and I think we did finally, after hours on the hay wagon, get around to it. On her front porch later that night I was going to kiss her goodnight when the porch light came on and her dad opened the door. I was always scared of her dad after that. Later I worked with him at the Milton cannery and he was really nice to me but I was always on my best behavior. I think at one of the reunions we laughed about that. My condolences to Adi and so sorry for you and all your family. Steven R. Evans, Mac-Hi 1961

It's hard to come up with words to express our deep sadness. Barbara has the person who got our family reunions started even though we are several hundreds of miles apart. Also to research our geniology and draw pictures of our grandmother's homes in Norway and here in the USA. She did it all and we are so grateful to have had Barb in our life and family. I can still see her big smile and hear her laugh. Our hearts are heavy with sadness. All our love to you Barbara. You are missed.

“ *I always admired Tante Barbara. As a young kid I already knew she was strong, opinionated and smart. She took the time to visit with me every time I saw her. We had conversations about teaching career, marriage and kids along with other topics. I appreciated all she had to share. She made you feel important even when you were little. I will miss her!*

“ *Barb, we will remember you teaching and playing Maureen's game (cards) with all of us. And also the many trips to Hawaii with you and Adi from the time the boys were born through elementary school....snorkeling, golfing, exploring. RIP*

“ *Barb, we had some great times -- on our trips to foreign lands (especially Africa) and our houseboat adventures on Lake Shasta. We wish there could have been more of those. You were always so organized and devoted to major projects -- your paintings and charcoal drawings of all the homes of our and your and Adi's family, and especially your incredible genealogy research stretching back many hundreds of years for both our and Adi's family. We will miss you terribly. You left us too soon.*

Barb was such an inspiration to me growing up. I always admired her beauty and kindness. The times we got to spend together was always special. She will be greatly missed by me and my family. We loved her very much. May she rest in peace and not suffer anymore.

“ Onkle Adi and Kristie,

What I remember most about Tante Barbara was coming to visit you in the house you had just built. I remember all the plants that you grew in the family room and I thought it was so magical! I remember I thought I want a room that has beautiful plants in it someday! I do and that was because of Tante Barbara's influence! I also remember how distinct her laugh was. It always gave me a warm feeling and I remember it came with heart and gusto! She will be greatly missed.
