“ *This is the year we would be sharing your graduation and celebrating your choices that we will never know now. You have been missed and will go to use to be missed.*

I wish we had the chance to visit Jones store in the Sierra. To go hiking - even though you may have protested. The things we never were able to do together are countless and missed.

Know that I love you and miss you silly girl. You will always be that smiling girl to me

“ *The Spring Creek Sproingers 4-H Llama club was lucky to have Holly as a member. She was probably the most patient kid I know. Her llama was less than cooperative but Holly only gave words of encouragement and never seemed phased when Olympe did not do well in a class. She continued to smile in the ring even when her llama was being stubborn. She was a hard worker in the barn and had a smile and a pleasant word for everyone. She is dearly loved as was evidenced by the hundreds of people that turned out for her service. Denise and Mike you raised a wonderful daughter!*
