“ *Ed and Tom,*

Marian was a very close friend of my mother, Dolores Smith. When I was growing up, I viewed her as my second mom. Through the years, she was always there when my mother needed her--to laugh and cry and to have a cup of coffee. I remember hearing her wonderful laugh coming from the kitchen when she came over for coffee. We moved back to Helena a couple years ago and I attempted to find her. Now I know you were taking care of her. She was lucky to have such great sons. I'll send a contribution to the Friends of Troopers. I remember her father was a Trooper and she told stories about his adventures. Hope all of the great memories of both of your parents will help you through this sad time.
