“*Friendship is not about who you've known the longest. It's about who walked into your life, said "I'm here for you" and proved it. Robert, thank you for asking for that first hug. I have cherished your unconditional friendship, your magnificent essence and the purpose for which you came into my life. I will forever be grateful and blessed to hold on to so many incredible and special memories. You truly understood what friendship, love and loyalty meant. I will forever miss you.*
